

**U. S. Department of Energy  
Condition Assessment Information System  
Request for Change  
Change Request #: 14-02**

Requestor Name:	Bill Buyers	Date:	08/20/2014	Affiliation:	
Email Address:	William.buyers@inl.gov	Phone No:	208-526-9271	DOE	
		HQ Program Ofc:	NE	Contractor	X
Proposed Change:	Provide CAIS with the capability to upload data from a spreadsheet in a similar fashion as the FIMS upload capability				
Justification:	<p>The capability is needed so that bulk quantities of data can be uploaded easily rather than having to open each asset and type the data in.</p> <p>For example, Each year I have to escalate the official estimated cost for IU that have an estimated cost from a source other than CAIS. It would be more time efficient to calculate the escalated cost on a spreadsheet and upload the new values in bulk like we can in FIMS.</p> <p>Another example: INL's primary source of condition assessment data is shifting to the VFA.Facility application which is used by our condition assessment provider. I need some way to efficiently upload the data from the VFA.Facility database to CAIS to keep CAIS current.</p>
