Change Request #: 14-05**

Requestor Name:	Steve Patterson	Date:	06/05/14	Affiliation:	
Email Address:	spatterson@pantex.com	Phone No:	806-477-3457	DOE	
		HQ Program Ofc:	NNSA	Contractor	X
Proposed Change:	<p>1) At the CAIS Asset Maintenance screen I recommend updating FIMS specific fields to show the data field names exactly as they are shown in FIMS.</p> <p>2) CAIS Ad-Hoc reporting – for asset level Ad-Hoc reports I recommend adding all data fields from the Asset Maintenance screen to the “Available Columns to Display” page</p>				
Justification:	<p>1) For example the CAIS Asset Maintenance screen currently shows:</p> <ul style="list-style-type: none"> • “Use Code” where FIMS shows “Usage Code” • “Square Feet” where FIMS shows “Gross SqFt” • CAIS does not show Primary Quantity or Secondary Quantity • “OSF Primary U/M” where FIMS shows “Primary Unit of Measure” • “OSF Secondary U/M” where FIMS shows “Secondary Unit of Measure” <p>There are other FIMS/CAIS data fields on the Asset Maintenance screen that should be updated so that data fields common to both database’s have the same field name (which should match FIMS)</p> <p>2) Adding all data fields from the Asset Maintenance screen to the “Available Columns to Display” page for CAIS Ad-Hoc reporting would be a huge help in securing reports relying on both CAIS and FIMS data that are used for annual data reviews and more.</p> <p>The basis for this request comes as I prepare for review of CAIS/FIMS data for our annual FIMS data validation. It would be nice to use CAIS as a primary tool to draw from when needing CAIS and FIMS data in one report.</p>
