CCB Remarks:	<p>11/5/2015 - CCB Recommended with modifications. Add a new Location Description field at top (see change request 16-04). Will offer to move user defined data for sites to the new Location Description field.</p> <p>It is the feeling of the CCB that all costs should remain together and near the top since the primary purpose of CAIS is cost estimating. In addition, it's much easier for the end user if all three flag fields (DM, RN and Modernization) remain together, near the top and next to the cost.</p> <p>Now that CAIS has the ability to default all three sections of the IU Detail window open, there is no need to move the remaining fields listed.</p>				
OAM Remarks:	11/6/2015 – Approved by Adam Pugh				
Implemented:	01/21/2016 – Implemented into CAIS v3.2
