

**U. S. Department of Energy  
Condition Assessment Information System  
Request for Change  
Change Request #: 15-06**

Requestor Name:	Steve Patterson	Date:	08/20/15	Affiliation:	
Email Address:	Steve.Patterson@cns.doe.gov	Phone No:		DOE	
Site Name:	Pantex	HQ Program Office:	NNSA	Contractor	X
Proposed Change:	Set-up the Ad-Hoc tool up so sites can see Ad-Hoc reports other CAIS 3.0 users' from their same site have created.				
Justification:	<p>Due to the volume of data Pantex provides its customers on a regular basis we have an immediate need to have the Ad-Hoc tool up so Pantex CAIS 3.0 users' can see Ad-Hoc reports other Pantex CAIS 3.0 users' have created.</p> <p>Pantex really would like to use the Ad-Hoc tool as our primary query tool. In order for us to effectively do this Pantex CAIS 3.0 users' need to be able to see Ad-Hoc reports other Pantex CAIS 3.0 users' have created. For example; Tonya and I use many of the same queries. We both should not have to each create the very same query asking for the very same data in the Ad-Hoc tool as causes duplicate work along with creating the opportunity for manual errors to be made regarding how the query is create. I have talked with Gayle Smith about this need as well.</p> <p>Thanks, Steve Patterson</p>
