Proposed Change:	<ul style="list-style-type: none"> ▪ Please add an additional filter in the CAIS adhoc reporting section. An additional filter for area would benefit sites with multiple areas. ▪ Please add the Ability/choice to perform FIMS uploads from CAIS by area. 				
Justification:	<p>Multiple DOE sites have various areas & different contractor reporting requirements so such changes/additions benefit the CAIS user. For example at FPDP each contractor is responsible for their own area in regard to performance of CAS facility inspections, as well as the data entry into the CAIS database. The Infrastructure contractor is then responsible for upload from CAIS to FIMS databases each fiscal year. These additional filters will allow the user to upload by area and report by area.</p>
