Change Request #: 16-08**

Site Name:	CNS Pantex	HQ Program Office:		Contractor	X
Proposed Change:	<p>1) At the Project Detail Screen the Estimated Cost data field currently only shows the sum of IUs with DM values. I have numerous projects that include CAS inspection components that have both DM IUs and Non-DM IUs. I propose you change the Estimated Cost data field to be the summed value of the Official Cost data field and retitle it to read Official Cost Estimate.</p> <p>2) At the Project Detail Screen add data fields showing the total Official cost sum for DM for project (Title it "Total DM this Project") and add data field showing the total Official cost sum for Non-DM for project (Title it "Total Non-DM this Project").</p> <p>3) At the bottom of the Project Detail Screen add the ← → keys to so that we can go to the next or previous project without having to go back to the project list screen.</p>				
Justification:	<p>Above suggestions will aid in the project and program management decision making process as well as add additional elements of enhanced user functionality.</p> <p>Thank you for your consideration!</p>
