Proposed Change:	<p>Add a Property ID search field to the Archived IU Search area as active assets could have multiple IUs both in the unarchived data storage of CAIS and in the archived data storage of CAIS.</p> <p>Note: Mark Gordy has already been made aware of this need and supports the submission of this CCR.</p>				
Justification:	<p>It would benefit all CAIS users to be able on the Archived IU Search screen to see an IU list under each asset.</p> <p>EXAMPLE: Let's say we have an active asset ID of 12-00A that has 20 IUs. We decide we have a need to archive 10 of these IUs. When we go to the Archived IU Search area and we have a Property ID search field, we could type in 12-00A and a list of the 10 archived IUs will pop up so that we could review and/or select which ever IU we wanted to look at for 12-00A.</p> <p>Thank you for your consideration!</p>
