Condition Assessment Information System
Request for Change
Change Request #: 16-20**

Requestor Name:	Steve Hart	Date:	9/13/2016	Affiliation:	
Email Address:	Steve.hart@srs.gov	Phone No:	803-952-9679	DOE	
Site Name:	Savannah River	HQ Program Office:		Contractor	
Proposed Change:	Increase filter capabilities on AdHoc Report page by including Program Office, Assigned Contractor, and Group				
Justification:	Greatly enhance reporting capabilities through increased selection of filters				
Please Do Not Type Below This Line					
CCB Remarks:	<p>10/26/2016 – CCB Not Recommended. There is already a filter in place for the Program Office. As for the other two fields, the Group field is only used by 4 of the 51 CAIS Sites. The Assigned Contractor is actually a FIMS data element and is optional. The use of Assigned Contractor in FIMS is basically used by just a few Sites.</p> <p>The CCB feels that this request does not provide any increased capability for the greater CAIS user community. One of the more important roles of the CCB is to look for opportunities for CAIS improvements that benefit most if not all Sites and not just a select few. Microsoft Excel has filter capabilities that can be activated with a click of a button and would serve well for filtering on the Group and Assigned Contractor data elements. The purpose and design of the CAIS ad-hoc reporting tool is to make it simple for any level user to export CAIS data into Excel. Once in Excel, you can use a variety of tools to further sort, filter, add totals and format the output.</p>				
OAM Remarks:	10/27/2016 – Adam Pugh concurs with the recommendation of the CCB. This change is not approved.				
Implemented:					

Complete form and email to Adam Pugh (adam.pugh@hq.doe.gov)
