Office of Asset Management (MA-50)
SUBJECT: Condition Assessment Information System (CAIS) Version 3.8 Release

Today, Wednesday, October 12, 2016, version 3.8 of the Condition Assessment Information System (CAIS) was released. The URL to access the CAIS application is <https://cais.doe.gov>. This release addresses the following enhancements which will automatically be available when you log into CAIS from your browser.

- A Cost Estimating module has been developed for CAIS. This module can be used to calculate estimates for repair/replacements of deficiencies. Estimates can be generated based on the following sources.
 - Assembly
 - Maintenance Assembly
 - Master Format
 - Maintenance Master Format

Data captured in the estimating module is separate from the CAIS IU level data. This enhancement represents Phase I of the Cost Estimating Module development. Phase II, which will be related to the development of custom RPV models, will be deployed at a later date.

- The CAIS User's Guide has been updated to reflect these enhancements. This document can be obtained from the CAIS Informational website (<https://cais.doe.gov/caisinfo/doc.html>).

If you have any questions related to these enhancements, please contact the CAIS Hotline at 301-337-6019 or email fims_cais_help@hq.doe.gov.
